From the Chairman and the President

As the Massachusetts Housing Investment Corporation (MHIC) enters its fifth year of operation, we see an organization that has emerged from its formative years. No longer a start-up operation, the Corporation's role in affordable housing in Massachusetts is well established and broadly understood. The demand for MHIC's programs continues to expand, and the need for affordable housing and sustainable communities has never been greater.

This past year, we saw the level of MHIC financing exceed \$126 million – an increase of 37% in commitments to affordable housing projects throughout Massachusetts. These housing projects, described later, will have significant impacts in their communities, as well as benefits for their residents.

We continue to improve the design of MHIC's financing approaches to make them more effective. MHIC's Equity Program has evolved with the establishment of MHIC's first equity fund. On the loan side, MHIC launched the OneSource program, whereby MHIC originates permanent loans for rental housing and sells the mortgages to the MHP Fund. With these changes, MHIC truly has become a single source for affordable housing finance.

MHIC was founded on a straightforward premise: that investment in our communities makes good sense – good sense for the neighborhoods to be sure, but good business sense as well for lenders and investors. The acceptance of this idea can be seen in the recent passage of federal legislation to support those "community development financial institutions" of which MHIC is a salient example. MHIC provides a return to its member banks and investors, while fulfilling its mission and living up to its core values.

But the real focus of these efforts, as pictured on the cover of this *Annual Report*, should properly be the sponsors, developers, and owners who bring projects to MHIC to be financed. Without their energy, vision, and perseverance, MHIC's resources could not be put to good use.

We wish to extend a special thank you to our member banks and investors. With their leadership and ongoing support, MHIC will strive to respond to the important challenges facing our communities.

Sincerely,

DAVID A. ŚPINA

Mission Statement

The mission of the Massachusetts Housing Investment Corporation (MHIC) can be summarized as follows:

To finance quality affordable housing throughout the Commonwealth; to supplement the financing available from banks for affordable housing; to aggregate and coordinate the effective use of public and private resources necessary to finance affordable housing.

The net result of this mission should be that *more* and *better* affordable housing projects are financed, and that they are done so in a more *efficient* manner. As an institution established by private banks in collaboration with community leaders, MHIC's mission depends on a partnership among banks, housing sponsors, and public agencies.

In undertaking this mission, MHIC is founded on four core values:

- 1. MHIC should attract private capital to finance affordable housing on an ongoing basis as a self-sustaining venture.
- **2.** MHIC should focus on geographic areas, sponsors, and projects which would not otherwise be able to receive financing.
- 3. MHIC should support the sponsors of affordable housing in their efforts to build and maintain stable, healthy communities.
- **4.** MHIC should improve and add value to the system of financing affordable housing, and not merely be one more player.

1994 Annual Report

The Massachusetts Housing Investment Corporation (MHIC), completing its fourth year, can report substantial achievements in meeting its initial goals. With 48 housing investments – representing \$126 million and 1,884 units of affordable housing – approved or under way, MHIC has come a long way since it was founded in 1990.

During the past year, MHIC has created new, innovative programs, listened to its constituents, and continued its work with other housing agencies to streamline and simplify the financing process. In this way, MHIC has built a strong foundation on which it can further its mission to facilitate the financing of quality affordable housing throughout Massachusetts.

In March, MHIC officially closed its first equity fund, an evolution of its Equity Program, with 11 limited partners and a total commitment of more than \$33 million. Created as a limited partnership, the Equity Fund increases the amount of equity available to non-profit and for-profit project sponsors through the sale of tax credits to participating banks and corporate investors. Because of the way that MHIC's Equity Fund is structured, project sponsors realize substantially higher yields than would be available through traditional sources. The Equity Fund is managed by a wholly-owned subsidiary of MHIC, which provides pooled reserves, an extended pay-in for investors, the ability to geographically target investments, effective asset management, and centralized underwriting, tax review and closing.

In a joint venture with the Massachusetts Housing Partnership Fund (MHP Fund), MHIC launched the new *OneSource* Loan Program, which provides a single source of financing for affordable rental housing. Under this program, MHIC originates both the construction and permanent loans, then sells the permanent loans to the MHP Fund upon completion of the project. Processing time and transaction costs

MHIC financing commitments increased by 37% during the last year.

MHIC has committed over \$126 million in pooled investments to 48 affordable housing projects. are substantially reduced, and there is only one loan closing. MHIC has developed with MHP a simplified loan application and loan documents, and a streamlined process for further reducing time and transaction costs.

Even with this record of achievement, MHIC recognizes that it must confront a changing environment, substantial unmet needs, and many challenges in meeting those needs effectively and efficiently.

Looking ahead, MHIC plans over the next three years to focus its resources and activities on the following strategic goals:

- □ Measurably increase affordable housing investment.
 □ Implement and market the 1995 Massachusetts Housing Equity Fund, developing broader corporate involvement and increasing net yield to project sponsors.
- ☐ Give priority to projects with significant minority participation or which have a significant impact on minority neighborhoods.
- ☐ Implement the OneSource program (with MHP) to provide permanent financing for affordable rental housing.
- ☐ Focus primarily (although not exclusively) on rehabilitation of existing housing stock and on smaller loans.
- Develop packaged financing, with subordinate debt, through the use of prototype(s) that can be utilized on an ongoing basis, rather than each project itself being a prototype.
- Develop and implement structures and systems that enhance MHIC's ability to attract and retain financial resources, and which support efforts to put those resources to effective use.

In all its work, MHIC is committed to working in partnership with the banking community, housing developers (both non-profit and for-profit), housing advocates, community developers, public agencies, and community-based organizations in responding to the critical need for more and better affordable housing in Massachusetts. By combining resources, eliminating duplication and forging new initiatives, MHIC is confident that it will continue to make significant progress in meeting the challenges ahead.

Loan Program

Established to provide loans for new construction and rehabilitation of existing housing, MHIC's Loan Program has raised over \$52 million as a revolving loan pool funded by member banks. With that funding, MHIC has committed over \$42 million to 32 projects. A total of 1,166 units are being added to the stock of quality affordable housing as a result of loans made by MHIC. The majority of these loans have been made in targeted neighborhoods and awarded to minority and nonprofit sponsors.

The volume of loan commitments and originations grew substantially under MHIC's Loan Program during 1994. During this year, new Credit Guidelines were adopted, the Loan Policy was revised, and the Loan Program was further strengthened by the addition of new staff.

In furthering its goal of financing quality affordable housing throughout the State, MHIC's Loan Program can point to significant achievements in 1994:

- ☐ Loans totaling \$17 million (428 units) were closed during the year. A total of \$33.1 million in loans have been closed since 1990.
- □ New loan commitments of \$21 million were issued for 545 units of affordable housing, with 148 of these units reserved for the homeless.
- ☐ Twelve loans were approved in 1994, with 5 in the Boston area, 4 in Western Massachusetts, and 3 in other parts of the State.

Credit administration was improved with the adoption of new Credit Guidelines and a revised Loan Policy which replace the original policies and procedures developed in 1990-91. The Credit Guidelines were simplified to arrive at a new risk rating system which is easier to apply and which recognizes specific aspects associated with affordable housing loans. The Loan Policy revisions update MHIC policies with regard to current practices and changes in repayment sources. Although traditional sources of repayment from long-term permanent

mortgage remain available, many construction loans rely on MHIC Equity Fund syndication payments for complete repayment. The overall impact of the new policies and guidelines is to make sure that prudent credit judgment continues to be applied to all proposed loans.

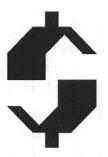

During this last year, MHIC introduced the new "OneSource" Program, a combined effort with the Massachusetts Housing Partnership Fund. This new loan program consists of a combined package of construction and permanent financing for affordable multi-family rental housing. Through this program, MHIC originates both the construction and permanent loan, and sells the permanent loan to the MHP Fund once a project is completed. This streamlined loan product significantly reduces transactions costs and the time required to close loans. MHIC will continue to work with other agencies in an effort to standardize underwriting and closing procedures.

To date, over \$52 million has been raised from participating banks. Of that amount, \$42 million has been committed to 32 project loans, comprising a total of 1,166 units of affordable housing. Investments in the Loan Program by MHIC member banks are listed below:

Bank of Boston	\$15,000,000
Shawmut Bank	\$10,000,000
Fleet Bank	\$10,000,000
BayBanks	\$6,000,000
State Street Bank	\$4,600,000
Massachusetts Company	\$1,500,000
Wainwright Bank	\$1,000,000
FDIC (Workingmens' Coop Bank)	\$1,000,000
USTrust	\$1,000,000
Springfield Inst. for Savings	\$250,000
Sterling Bank (now Fleet Bank)	\$500,000
Neworld Bank (now Citizens Bank)	\$500,000
Boston Private Bank	\$300,000
Bank of Commerce	\$250,000
Atlantic Bank	\$250,000
Stoneham Savings	\$250,000
TOTAL	\$52,400,000

The "OneSource" loan streamlines processing, saving time and money.

The quality and expertise of the Loan Department has been strengthened considerably during the past year. With the advent of new programs and enhanced policies and procedures, MHIC intends to increase lending activity. Working with other lending agencies, both public and private, MHIC will continue to be a major force in promoting quality affordable housing throughout Massachusetts.

Equity Program

In 1994, MHIC successfully established the Massachusetts Housing Equity Fund (MHEF), as a wholly-owned subsidiary, and organized its first investment limited partnership. This new Equity Fund structure was created to improve on the success of MHIC's three-year-old Equity Initiative through which MHIC has coordinated the direct placement of low income housing tax credit with its member banks.

The Massachusetts Housing Equity Fund is designed to:

- □ Streamline the financing process. The new Equity Fund is structured to provide responsive access to tax credit equity by centralizing underwriting, tax review, and closing.
- ☐ Provide expanded equity for affordable housing through the efficient sale of tax credits to participating banks and corporate investors. As a result, project sponsors realize significantly higher equity yields than would be available through traditional sources.
- ☐ Expand the base of corporate investors.

Creation of the Equity Fund was made possible by the permanent status given to the Low-Income Housing Tax Credit Program signed into law in August 1993. Under this program investors realize substantial tax benefits and can feel confident that their investments make both good public policy and good business sense.

On March 14, 1994, the Massachusetts Housing Equity Fund 1993-94 Limited Partnership closed with \$33,756,000 raised. \$16,502,400 – almost 50% – came from investors new to MHIC. This represents a solid and promising first step in broadening the investor market for tax credit investment in Massachusetts.

Since then, MHEF has closed the first four investments in the 1993-94 Limited Partnership, totaling \$8.1 million in equity. Nine additional projects are in underwriting, and seven of those are expected to close before the end of the 1994 calendar year.

With the establishment of this new Equity Fund, MHIC has been able to increase the net yield to projects from about sixty cents on the tax

MHIC has managed to sharply reduce the time needed to secure equity.

credit dollar to an average of sixty-five cents on the tax credit dollar for projects in the 1993-94 Equity Fund. In addition to that boost in yield, more of the net yield has been freed for project costs as a direct result of the removal of the requirement that 10% of capital contributions be used to fund the net worth of each project's general partner.

By separating the fundraising process from the process of choosing and underwriting investments, MHIC has managed to sharply reduce the amount of time needed to secure equity financing. Furthermore, incorporating preparation of benefit forecasts and related accounting reviews into its responsibility and cost structure has resulted in reduction of syndication costs.

During the Equity Fund's first year, MHIC has continued to work with the development community in the context of the overall tax credit equity marketplace so that the Corporation can continue to improve its program. MHIC is now organizing its 1995 Limited Partnership. The fund will be marketed to investors in the fall of 1994, with a goal of closing the fund at the beginning of 1995. MHIC's goal is to raise a total of over \$40 million to be paid-in over eight years (the equivalent of \$30 million in current dollars). MHIC will strive to raise at least one-third of that amount from non-bank corporate investors.

MHIC's return to investors for the 1995 Fund will remain competitive. At the same time, MHIC's continuing focus on reducing the syndication load will enhance the ability to provide adequate resources for the long term stability of both projects and sponsors.

In 1994, MHIC developed a new structure for raising and investing equity capital for low income housing projects. The challenge for 1995 will be to refine that product, to expand both accessibility to sponsors and attractiveness to investors as a sound investment, and to maintain MHIC's leadership position in the industry. In this way, MHIC will be able to meet both the objectives of its member banks and the objectives of the low income housing tax credit program.

Projects

During the past four years, MHIC has committed a total of \$136 million to 58 projects under its Loan and Equity Programs. These figures represent approximately 2,209 units of affordable housing for Massachusetts residents.

To date, 33 projects have been completed and are occupied; eight projects are under construction; and seven projects are scheduled for closing. Ten projects have been approved but are currently inactive. Through MHIC, 16 projects have received construction financing alone, 16 projects have received equity funding alone, and 16 have received funding from both programs.

In evaluating project proposals, MHIC's Loan and Investment Committees follow established guidelines and carefully underwrite projects' financing to ensure that all projects will successfully serve the housing needs of the Commonwealth's residents.

Following are brief descriptions of projects financed by MHIC over the last year:

123 Crawford Street SRO: 17-unit single-room-occupancy (SRO) project in Roxbury, developed by the Boston Citywide Land Trust. Twelve units house clients of the Department of Mental Health. Loan amount: \$441,000. Completed and occupied.

41 Berkeley Street: Rehabilitation of 3 buildings into 38 rental units affordable to low income families in Lawrence. The developer is the Heritage Common Community Development Corporation. Total loan amount (with Andover Bank): \$564,400. Completed and occupied.

800 Main Street: 5 affordable rental units, 2 store fronts and 2 offices. The project is a renovation of an existing mixed-use structure in Worcester. This project was developed by Frank Zitomersky. Loan amount: \$175,000. Completed and occupied.

Finances of the Corporation

The Corporation is designed to be self-supporting, covering its expenses with revenue from its two main programs. The Corporation completed its fourth year of operation with a surplus of income over expenses. The attached consolidated financial statements provide additional detail of the Corporation's finances.

In February 1993, the Corporation secured approval from the Internal Revenue Service (IRS) of its status as a 501 (c)(3) charitable non-profit corporation.

Under the Loan Program, MHIC earns an interest rate spread of 1% to 1.5%. To support the finances of the Corporation, participating banks accept a lower return of interest on invested loan balances.

The Corporation has allocated \$150,000 for a reserve against potential future loan losses. A Credit Review Committee comprised of members of the Board reviewed the Corporation's portfolio of loans, affirmed the risk rating of each loan, and concluded that there was no need to establish any reserves for specific credits.

Prior to January 1993, MHIC managed a program that provided assistance to member banks in underwriting low income housing tax credit investments. Under this program, MHIC charged participating banks for analyzing, standardizing, and managing tax credit equity investments, based on a percentage of their level of investment, and fees were collected from investment proceeds to cover MHIC expenses.

In June 1993, MHIC established a wholly-owned subsidiary, Massachusetts Housing Equity Fund, Inc. (MHEF), which will act as the general partner of limited partnerships structured for investment in low-income housing projects in Massachusetts. MHIC has capitalized MHEF, Inc. in the amount of \$939,100.

Report of Independent Auditors

Board of Directors
The Massachusetts Housing Investment Corporation

We have audited the accompanying consolidated balance sheets of the Massachusetts Housing Investment Corporation (the Corporation) as of June 30, 1994 and 1993, and the related consolidated statements of revenues and expenditures, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Massachusetts Housing Investment Corporation at June 30, 1994 and 1993, and the consolidated results of its operations and its cash flows for the years then ended, in conformity with generally accepted accounting principles.

Notes to Consolidated Financial Statements

1. Background and Accounting Policies

Purpose

On July 1, 1990, the Massachusetts Housing Investment Corporation (MHIC) was formally established as a Massachusetts-chartered, Chapter 180, not-for-profit corporation. MHIC's mission is to pool the resources of Massachusetts banks to improve and expand the financing of affordable housing throughout the state. To date, MHIC has established a loan pool which provides loans for affordable housing on a statewide basis to not-for-profit as well as for-profit developers. Prior to January 1994, MHIC managed a program that provided assistance to member banks in underwriting low income housing tax credit investments.

In June 1993, MHIC established a wholly-owned subsidiary, Massachusetts Housing Equity Fund, Inc. (MHEF), which is the General Partner in the Massachusetts Housing Equity Fund 1993-94 Limited Partnership (MHEF 1993-94 LP), a limited partnership structured for investment in low-income housing projects in Massachusetts. MHIC has capitalized the General Partner in the amount of \$939,100. MHEF, as general partner of MHEF 1993-94 LP, has a 1% interest in MHEF 1993-94 LP profits, losses, and distributions. At June 30, 1994, MHEF 1993-94 LP has total assets and partnership capital of approximately \$27,200,000 and \$23,500,000, respectively.

Principles of Consolidation

The consolidated financial statements include the accounts of MHIC and its wholly-owned subsidiary, MHEF. All significant intercompany transactions and balances have been eliminated in consolidation.

Accrual Basis

The consolidated financial statements of MHIC have been prepared on an accrual basis.

Reclassifications

Certain amounts in the 1993 financial statements have been reclassified to conform to the 1994 presentation without effect on net income.

Project Loans and Allowance for Possible Project Loan Losses

Loans are stated at the amount of unpaid principal, net of unearned discount, deferred loan fees and the allowance for loan losses. Interest on project loans is recognized as income by applying the interest rates to the principal amount outstanding. An allowance for project loan losses is maintained based upon the evaluation of the risks associated with the outstanding loans. Any losses or recoveries subsequently realized are charged or credited to the allowance.

Furniture, Equipment and Leasehold Improvements

Furniture, equipment and leasehold improvements are stated at cost, less accumulated depreciation and amortization. Depreciation is computed by the straight-line method using rates based on estimated useful lives.

Notes to Consolidated Financial Statements (continued)

1. Background and Accounting Policies (continued)

Revenue Recognition

MHEF acts as general partner of MHEF 1993-94 LP and holds a 1% interest in the limited partnership. MHIC has agreed to provide underwriting, administrative, asset management, and other services to the limited partnership. Asset management and servicing fees are recognized as the services are performed over the life of the limited partnership (estimated to be approximately 15 years). Project selection and underwriting fees are recognized at the time of project closings. During 1994, MHIC recognized fees of approximately \$672,000 for services provided and costs incurred in connection with the formation and operations of MHEF 1993-94 LP.

Income Tax Status

MHIC has been granted tax-exempt status as a 501(c)(3) corporation under federal tax law. MHEF is a forprofit corporation and therefore is taxable for federal and state income tax purposes.

2. Notes Payable to Member Banks

MHIC funds their loan pool through unsecured notes issued to member banks pursuant to a Master Membership Agreement. Under this agreement, all note proceeds not lent are required to be deposited in money market deposit accounts at the respective lending institutions. The notes accrue interest at 1% less than the annual interest rate earned on the interest-bearing accounts. All lent proceeds bear interest at prime rate less 1%. These notes are renewable annually. If they are not renewed, they require no principal amortization for five years and then amortize over a five-year period at an amount equal to the stated amount of the note less the member's pro rata share of unfunded losses. At June 30, 1994, outstanding borrowings under these agreements totaled \$52,250,000.

3. Note Receivable from MHEF LP

The notes receivable from MHEF 1993-94 LP represent the present value (using an effective interest rate of approximately 8 %) of future cash payments that will be received by MHIC for asset management and other services it will provide over the life of MHEF 1993-94 Limited Partnership, as specified in the partnership agreement. At June 30, 1994 \$1,626,709 is recorded as unearned fees.

4. Project Loans

MHIC provides loans for the development of affordable housing throughout Massachusetts.

Project loan activity is as follows:	<u>1994</u>	1993

Notes to Consolidated Financial Statements (continued)

4. Project Loans (continued)

Project loans earn a variable rate of interest pursuant to MHIC's established loan policy and are secured by the underlying projects. In certain instances, the primary repayment of these loans will be received from the equity syndication payments provided to the project by the MHEF LP tax credit equity investment program. At June 30, 1994, MHIC had no delinquent or non performing project loans and there have been no charge-offs recorded to date.

5. Commitments

At June 30,1994, MHIC had unfunded commitments to originate loans of \$18,612,000. These commitments have been established pursuant to MHIC's loan policy.

6. Leases

MHIC leases its facilities and certain furniture and equipment under operating leases which expire over the next forty months and require various minimum rental payments. Future minimum payments, by year and in aggregate, under these noncancelable operating leases consist of the following at June 30, 1994:

1995		\$173,737
1996		153,612
1997		138,740
1998		22,667
1999		0_
TOTAL		\$488,756

MHIC incurred rent expense associated with office space and equipment of approximately \$127,700 and \$91,135 in 1994 and 1993, respectively.

7. Employee Benefit Plan

As a tax-exempt 501(c)(3) corporation, MHIC established a noncontributory, defined contribution plan under Section 401(a) of the Internal Revenue Code covering all full-time employees. The only source of contributions under the Plan is the annual employer contribution. MHIC contributed and charged to expense approximately \$39,000 in 1994 and \$23,000 in 1993.
